

TCM Forklift Part

TCM Forklift Parts - Forklift trucks are a major player in the material handling field of each and every international trade. Transporting industrial goods happens each day on our industrious world. First innovated as industrial vehicles during the 1930s in the U.S., forklifts gained recognition after WWII during the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these equipment spread worldwide.

Originally founded as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. before becoming recognized as the TCM Corporation. Founded by Mr. N. Niwa manufactured Japan's first forklift. Through the years, TCM lift trucks have become an international leader in forklift manufacturing and have built a solid reputation with the trade. TCM started building lift truck manufacturing locations outside of Japan during the 1980s and is now engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly manufactures many models of industrial lift trucks with more than 50 years of accumulated expertise and technology, making their products recognized and used all around the world. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aspires to become a world-class leading business.
