

## Barrel Clamp

Barrel Clamp - Referred to as "Barrel Clamp", this hydraulic attachment is utilized on lift trucks to compress items which you need to transport utilizing the lift truck. Normally, they're used so as to paper rolls, barrels, and handle kegs, together with a few barrel clamp designs being able to rotate the load. For instance, the revolving function allows a lift truck operator to be able to insert a vertically stored paper inside the horizontal intake of a printing press.
