

## Rockwell Part

Rockwell Part - The company of AxleTech International is a large supplier of specialty vehicle drive-train systems and components along with off highway vehicles. They take great pride in being a preferred supplier to their customer base. AxleTech strives to meet and exceed their clients' expectations for quality, service, technology and delivery. They believe in working in an environment which encourages the utmost integrity with empowered collaboration, combined with a unrelenting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great emphasis on being an environmentally conscious business and offering a safe atmosphere for their staff to work in. Additionally, they have applied a lot of programs within the corporation to be able to help articulate these values within their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with whatever comments or questions, because they are happy to promote and share this policy with a greater knowledge of their efforts. They are very dedicated to improving and preserving the natural world. AxleTech has an EHS program that not just protects the environment but which even actively protects their workers and neighbors also.

AxleTech specializes in the designing and manufacture of planetary axles used for both military and commercial applications, which could comprise anything from airport ground support to construction equipment. They take great pride in being a ground-breaking drive-train solutions provider also. AxleTech specially designs axles so as to meet particular application demands. They have more than 1000 various axle specs within their existing offering. With over one hundred years of skill and history, AxleTech proudly supplies the most complete solution for whichever of your axle requirements. The business is well known in various commercial and military applications. They provide complete axle assemblies utilized for aftermarket replacement requirements, together with servicing axle needs for OE production. Their high mobility ISAS have further details which can be found in the "ISAS" product collection.
