

Concrete Hopper

Concrete Hoppers - The self-dumping hopper accessory could automatically activate to both unload and release as soon as the bumper release contacts the side of a dumpster. When unloading is completed, the hopper can go back to original locked and upright position. This particular piece of machinery even comes along with a cable which allows operation from the seat of the forklift to be able to have the choice of manually dumping the hopper. There is a locking chain provided so as to secure the hopper to the fork truck. This product is made with consistent and reliable robotic welds for utmost strength. The forklift dumping hopper even has a blue powder coat finish to be able to maintain durability.
